He has given his own name as a nickname

June 4, 1888, the Governor signed a law sed by the Legislature on the recommen lation of a committee of experts, providing that the punishment for murder after Jan. 1889, should be death by means etrical current that should be canced to pass through the body of the

Death was to be caused by anthe current to the subject while he sat in a chair made for the purpose and into

When the law providing for executions by ricity was passed, Warden Durston had "solitary" cells built for the reception ed man. These cells are located in nent of the south wing.

They are isolated from the rest of the prison, are walled with steel, and have on backs, iron floors, iron ceilings of two-inch cross-bars of angle iron, riveted with inch bolts at the cross sections, and as

None of the other prisoners ever enter this ion of the prison, and the officers, exder's own keeper, are forbidden to go near this living tomb.

So complete has been Kemmler's isolation re was probably not a person consted with the prison, saide from Warden in Tates and the Rev. Dr. Houghton,

When he was taken out for the one occa sion to visit Buffalo for resentence he was so altered that it was the subject of much remark among the Eric County officials.

The hang-dog look had gone. The hol-lowed cheeks had filled, a dark beard had grown, the eyes were brighter and larger and the greasy old clothing had been super-seded by a new suit of dark cloth.

Kesper Griffin, who opens the portals at in cats of Auburn Prison for the ence and egress of every visitor, first knew der had passed out and in again under his very eyes, shackled to a keeper, on the occasion of the visit to Buffalo, when he ad it in the Buffalo despatches to the Auburn papers.

## Kenmler's Life and Crime.

If vengeance were what the law seeks by espital punishment for murder it would get little satisfaction out of the event of to-day, for the poor wretch whose life has been taken within the shadows of Auburn Prison visored Death with a childlike expectancy.

Born at 2531 North Second street, in the slums of Philadelphia, in 1860, William was one of a family of cleven children. His father was a German Lutheran.

The boy never knew a trade. As a child sattended a German school and learned a tile. But he was soon taken from the school to help his father, who was a butcher, and forgot everything he had learned.

Afterwards he worked for others as a Then he sold vegetables as a nuckster, and one of his customers was Mrs. Matilda Zeigler, of Camden, N. J., directly across the river from Philadelphia.

ber. 1888, Kemmler was married in Camden to a woman by the name of lda

Two days after his wedding he deserted his bride and ran away with Mrs. Zeigler. They went to Buffalo and became a part of the drift of the half world so unknown to

mier and his paramour lived like anials in the worst district of Buffalo. Their life was a continual carouse, interrupted by
